	Social services	Paypoints needs proper structures.
	Safety and Security	Security and protection is needed at ward 16 as a matter of urgency

9.3. ALIGNMENT WITH NATIONAL PRIORITIES/STRATEGIES

9.3.1 NATIONAL PRIORITY AREAS

- Creation of decent work and sustainable livelihoods;
- Education
- Health;

- Rural development, food security and land reform; and
- The fight against crime and corruption

9.3.2 NATIONAL OUTCOMES

- Improved quality of basic education
- Along and healthy life for all South Africans
- All people in South Africa feel and are safe
- Decent employment through inclusive economic growth
- Skilled and capable work force to support inclusive growth path
- An efficient, competitive and responsive economic infrastructure network
- Vibrant, equitable and sustainable rural communities with food security for all
- Sustainable human settlement and improved quality of household life
- A responsive, accountable, effective and efficient local government system
- Environmental assets and natural resources that are well protected and continually enhanced
- Create a better South Africa and contribute to a better and safer Africa and World
- An efficient, effective and development oriented public service and empowered, fair and inclusive citizenship

The National Development Plan focuses amongst others on the following:

- The active efforts and participation of all South Africans in their own development
- Redressing the injustices of the past effectively
- Faster economic growth and higher investment and employment
- Raising standards of education, a healthy population and effective social protection
- Strengthening the links between economic and social strategies
- Collaboration between the private and public sector

MTSF	NDP	EPMLM Objectives	Strategic	OUTCOME 9
Strategic Priority 1: Speeding up growth and transforming the economy to create decent work and sustainable livelihoods i.e. expenditure management	Faster economic growth and higher investment and employment	Grow the economy and provide support	the economy and livelihood	Implement the community work programme and cooperatives supported
Strategic Priority 2:	Strengthening the links between economic and social strategies	Improve wellbeing through accelerated	community	Improved access to basic services

MTSF	NDP	EPMLM Objectives	Strategic	OUTCOME 9
<p>Massive programme to build economic and social infrastructure i.e. infrastructure investment programme, public transport infrastructure, low-cost and affordable housing, improving provincial and local government capacity, health, education, library, sporting, recreation</p> <p>Strategic priority 3:</p> <p>Comprehensive rural development strategy linked to land and agrarian reform and food security i.e. land reform policies, agricultural production, rural livelihoods and food security, service delivery, rural transport, revitalization of rural towns, support non-farm economic activities</p> <p>Strategic Priority 4:</p> <p>Strengthen the skills and human resource base i.e. adequate basic services (water, sanitation, electricity to schools; access to facilities such as libraries, classrooms and laboratories.</p> <p>Strategic Priority 5:</p> <p>Improve the health profile of all South Africans i.e. filling of critical vacant posts, improving the national emergency medical (ambulance) service model, implement Comprehensive Plan for the Treatment, Management and Care of HIV and AIDS</p> <p>Strategic Priority 6:</p> <p>Intensify the fight against crime and corruption i.e. fight against crime and corruption in the public and private</p> <p>Strategic Priority 7:</p> <p>Build cohesive, caring and sustainable communities i.e. development and strengthening of community organizations such as school governing bodies, community policing forum, ward committees,</p>	<p>Redressing the injustices of the past effectively</p> <p>Raising standards of education, a healthy population and effective social protection</p> <p>Raising standards of education, a healthy population and effective protection</p> <p>Raising standards of education, a healthy population and effective social protection</p> <p>Collaboration between the private and public sector</p>	<p>service delivery</p> <p>Plan for the future</p> <p>Improve wellbeing accelerated delivery</p> <p>House the nation and build integrated human settlement</p> <p>Effective and efficient community involvement</p> <p>Become financial viable</p> <p>Develop partnerships</p> <p>Improve intergovernmental function and coordination</p>	<p>Actions supportive to human settlement outcomes</p> <p>Implement a differentiated approach to municipal financing, planning and support</p> <p>Improve capacity administrative</p> <p>Deepen democracy through a refined ward committee model</p> <p>Single window of coordination</p> <p>Single window of coordination</p>	

MTSF	NDP	EPMLM Objectives	Strategic	OUTCOME 9
Strategic Priority 8: Pursuing African advancement and enhanced international co-operation	The active efforts and participation of all South Africans in their own Development	Effective and efficient community involvement	Single window of coordination	
Strategic Priority 9: Sustainable Resource Management and use	The active efforts and participation of all South Africans in their own Development	Develop and retain skilled and capacitated workforce To build effective and efficient organization	Implement a differentiated approach to municipal financing, planning and support	
Strategic Priority 10: Building a developmental state including improvement of public services and strengthening democratic institutions i.e. Improving the capacity and efficacy of the state, improving the delivery and quality of public services, entrenching a culture and practice of efficient, transparent, honest and compassionate public service and building partnership with society and strengthening democratic institutions	Raising standards of education, a healthy population and effective social protection	Develop and retain skilled and capacitated workforce	Improve administrative capacity	

During the strategizing process, further cognizance was taken of the national guidelines to guide local development. The localized strategic Guidelines are an important element of the strategies phase that determines how development should be undertaken taking into cognizance the relevant policy guidelines and legislation. The rationale behind the need to develop localized strategic guidelines to ensure that cross cutting dimensions such as the spatial development principles, local economic development strategies, environmental sustainability and poverty alleviation and gender equity aspects are adequately considered when strategies and projects are planned. The localized strategic guideline discussed hereunder, outline the way in which the municipality development strategies and projects consider the national guidelines into consideration the specific conditions in the municipality as indicated in the analysis phase.

SECTION A: INTRODUCTIONS

The Ephraim Mogale Local Municipality held its Strategic Planning Lekgotla during the period between the 26th-27th January 2017, to review the current 2016/17 IDP and align the proposed 2017/18 IDP taking cognisance of both the 2015/16 Annual Report and 2016/17 Midyear Performance Report as well as other influencing factors. The purpose of this process was to review and re-align the current strategies to assist the institution in dealing with various service delivery challenges and other related factors. Based on the evaluation of all the relevant analysis input the Ephraim Mogale Local Municipality has developed the following strategies contained within their developmental programmes. This will ensure that all challenges have been prioritised and will be addressed through the appropriate allocation of resources.

According to Section 53 of the Constitution a municipality must structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community, and participate in national and provincial development programmes¹.

The above implies that local government must comply with the National Development Plan (NDP) that defines the framework for detailed planning and action across all spheres of government. Strategic priority areas identified by National and Provincial governments will therefore guide the strategic priority areas identified by municipalities to build a developmental government that is:

- efficient, effective and responsive;
- to strengthen accountability and to strive for accountable and clean government;
- to accelerating service delivery and supporting the vulnerable and;
- to foster partnerships, social cohesion and community mobilisation

Municipalities in South Africa use *integrated development planning* as a method to plan future development in their areas and determine the best solutions to achieve sustainable long-term development. An Integrated Development Plan (IDP) is a strategic plan for an area that gives an overall framework for development. A municipal IDP provides a five year strategic programme of actions aimed at setting short-, medium- and long- term strategic and budget priorities. The IDP therefore aligns the resources and the capacity of a municipality to its overall developmental aims and both informs and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those involved in the development of a municipal area². The IDP enables municipalities to use scarce resources most effectively and efficiently to accelerate service delivery.

¹ South Africa. 1996. Constitution of the Republic of South Africa, Act no 108 of 1996. Pretoria: Government Printers.

² Ibid.

The 2017/22 Ephraim Mogale Local Municipalities IDP is a continuation of the drive towards the alleviation of poverty over the short-term and the elimination of endemic poverty over the medium-to long-term period. This IDP also focuses on the Presidential call around the alignment of the National Development Plan (NDP), Provincial Employment Growth and Development Plan (PEGDP) and the Municipalities IDPs.

At the core of the 2017/22 IDP is the challenge and commitment to

- Deepen local democracy,
- Enhance political and economic leadership,
- Accelerate service delivery,
- Build a developmental local government, and
- Ensure that the municipal planning and implementation are done in an integrated manner within all spheres of government.

The strategies of the municipality, which are linked to programmes and identified projects must therefore focus on and be aligned to these priorities.

In most organisations, strategic planning is conducted to define the strategy or direction of the organisation and thus make decisions on resource allocation to pursue the vision of that organisation. The Green Paper on National Strategic Planning (2009)³; the forerunner for the development of the NDP, states that strategic planning in government organisations is imperative to ensure growth and development, strengthening of institutions, nation building and the establishment of a developmental state. The main outputs of [strategic] planning include a long-term vision, a five-year strategic framework and spatial perspectives that will ensure ongoing leadership in the management of major social dynamic and key drivers of social development.

To achieve the aim of strategic planning, it should encompass a set of concepts, procedures and tools designed to assist leaders and managers with achieving set goals and objectives through the application of strategies with clear plans of action that are measurable. Therefore, this strategic plan sets out the main strategic objectives, desired outcomes, measurements and targets to be achieved, with clear strategies to achieve the vision of the municipality. The continued focus of the National Government is economic growth and socio-economic transformation through the provision of governance structures to optimise basic service delivery in all spheres of government. In terms of this focus, municipalities are mandated to give effect to the objects of local government as contained in section 152 of the Constitution, namely:

- Democratic and accountable governance;
- Sustainable services;
