

### **Vaccination of Rabies, a proactive prevention in Moutse West**

The Ephraim Mogale Local Municipality welcomes the Limpopo Department of Agriculture for its proactiveness in development Rabies Program in the municipality as part of World Rabies Day celebration on Thursday, the 28 September 2017.

The municipality noted the danger and the repercussion Rabies can cause to the health of both our communities and its domestic animals. While the municipality noted further that Ephraim Mogale municipality and Sekhukhune District municipality are not part of the province rabies challenged hot spot, the municipality is impressed by the fact that, Department of Agriculture aimed to raise awareness amongst the communities, confirming absence of the Rabies disease in the area and encouraging community to both report incidences and vaccinate its domestic animals as part of its commitment in preventing future possible emerging of the Rabies in our area.

The municipality confirm that it will make some resources available such as venue and assisting in communication with communities to vaccinate the domestic animals as per the schedule and program of the Department of Agriculture in our area.

Communities within the Moutse West area are encouraged to take their domestic animals for vaccination at following venues:
