1. INTRODUCTION

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, “the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA.”

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP with a management and implementation plan. The SDBIP serves as the commitment by the Municipality, which includes the administration, council and community, whereby the intended objectives and projected achievements are expressed in order to ensure that desired outcomes over the long term are achieved, and these are implemented by the administration over the next twelve months.

The SDBIP provides the basis for measuring performance in service delivery against quarterly targets and implementing the budget based on monthly projections. Circular 13 further suggests that “the SDBIP provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councilor’s, municipal manager, senior managers and community.”

2. LEGISLATION

The Municipal Finance Management Act (MFMA) defines a Service Delivery and Budget Implementation Plan (SDBIP) as: a detailed plan approved by the mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate-

(a) projections for each month of-

- (i) revenue to be collected, by source; and
- (ii) operational and capital expenditure, by vote.

(b) service delivery targets and performance indicators for each quarter

Section 53 of the MFMA stipulates that the mayor should approve the SDBIP within 28 days after the approval of the budget. The mayor must also ensure that the revenue and expenditure projections for each month and the service delivery targets, and performance indicators as set out in the SDBIP are made public within 14 days after their approval. Furthermore, Section 28(1) of the MFMA requires that a municipality may revise an approved annual budget through an adjustment budget.

The following National Treasury prescriptions, in terms of MFMA Circular 13, are applicable to the Ephraim Mogale Local Municipality:

1. Monthly projections of revenue to be collected by source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote¹ *
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information on expenditure and service delivery

¹ Section 1 of the MFMA defines a “vote” as:

- a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and
- b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned

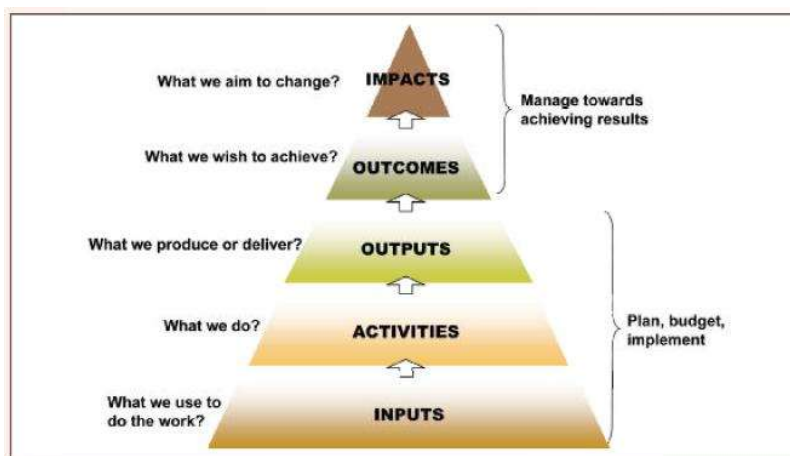

- 5. Detailed capital works plan broken down by ward over three years

3. METHODOLOGY AND CONTENT

The development of the Adjusted SDBIP was influenced by the Priorities, Strategic Objectives, Programme Objectives and Strategies contained in the IDP ensuring progress towards the achievement thereof. The SDBIP of the Ephraim Mogale Local Municipality is aligned to the Key Performance Areas (KPAs) as prescribed by the Performance Management Guide for Municipalities of 2001, with the addition of Spatial Rationale as another KPA to be focused upon.

The methodology followed by the municipality in the development of the SDBIP is in line with the Logic Model methodology proposed by National Treasury as contained in the Framework for Managing Programme Performance Information ²(FMPPI) that was published in May 2007. The accompanying figure as an extract from the FMPPI is hereby indicated.

The Logic Model was followed whereby desired impacts were identified for each strategic objective with measurements and targets contributing to the achievement of those impacts. This was followed by the identification of priority programmes and associated outcomes and measurements and targets contributing to the achievement of those outcomes. Then SMART programme objectives and short, medium and long-term strategies were developed to achieve the outcomes and associated output indicators and targets.

Thereafter projects were identified with quarterly milestones and the required budget as well as required human resources and equipment (inputs). This process was used to prioritize projects, capital items to be acquired and the personnel budget.

The strategies of the municipality, which are linked to priority programmes, measurement and targets as well as projects focus on and are aligned to the National and Provincial priorities.

The key performance indicators and targets as well as the projects that are contained in this SDBIP are to measure, monitor and report on the implementation of the outcomes and strategies identified in the strategic phase of the IDP. Indicators are assigned quarterly targets and departmental responsibilities to monitor performance.

The SDBIP is described as a layered plan. The top layer deals with consolidated service delivery targets and time frames as indicated on this plan. The second layer of the SDBIP, that need not be made public, will deal with the breakdown of more details of output per department and will be contained in the departmental managers' SDBIPs.

² The Framework for Managing Programme Performance Information is available at: www.treasury.gov.za

4. VISION, MISSION AND VALUES

According to Section 53 of the Constitution a municipality must structure and manage its administration and budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community and participate in national and provincial development programmes³.

The above implies that local government must comply with the national strategic plan that defines the framework for detailed planning and action across all spheres of government. Strategic priority areas recognised by national and provincial government will therefore guide the strategic priority areas identified by municipalities to build a developmental government that is efficient, effective and responsive; to strengthen accountability and to strive for accountable and clean government; to accelerating service delivery and supporting the vulnerable; and to foster partnerships, social cohesion and community mobilisation.

The strategic vision of the organization sets the long-term goal the municipality wants to achieve. Ephraim Mogale Local Municipality's vision is one that "wishes" for a future that deals with the many challenges and needs of the community. The **Vision** of Ephraim Mogale Local Municipality reads as follows:

"To be a World Class Agricultural Hub of Choice"

Ephraim Mogale Local Municipality has summarized its objectives into the following **mission statement** that should provide everyone involved with the municipality (either as employee, stakeholder or community member) with the answer to justify the reason for its existence.

"To involve the community in the economic, environment and social development for sustainable service delivery"

The **values** describe the interrelationship between people within an institution and the interrelationship between them and the people they serve. As such it describes business practices applied, and the value placed on certain principles. The values Endeavour to reflect the culture that prevails or should prevail in a specific institution. The values of Ephraim Mogale Local Municipality were identified from the interrelationships between Councilors, Administration and the Community and focus on the following key points:

Value	Description
Communication	Everybody is empowered within the whole community
Transparency	Invite and encourage public sharing and democratic participation in council's activities.
Commitment	Focus and concentrate on council's core activities in a consistent manner.
transparency	Conduct council's business in a fair, responsible, flexible, equitable and honest manner.
Accountability	Report regularly to all stakeholders regarding council's actual performance.
Teamwork	In all aspects of conducting ourselves and our mandate, we will focus on service excellence.

5. STRATEGY

Providing strategic direction entails aligning the vision of the municipality to clear and tangible strategic goals based on certain critical success factors of the municipality and inclusive strategic objectives, programmes, projects and indicators to measure the intended results to be achieved.

The following strategic goals were crafted at a Strategic Planning Lekgotla held on the 12th to 14th of February 2025 and depict how the Ephraim Mogale Local Municipality intends to achieve its stated vision. These strategic goals were developed in terms of the Balanced Scorecard Perspectives being Learning and Growth; Institutional Processes; Financial and Community Satisfaction. The benefits of implementing the model include the provision of strategic focus and direction to the organization; improve governance and accountability; promotes alignment and transparency and improve management effectiveness. The following table represents the alignment of Key Performance Areas as well as the intended outcome,

KPA Description	Strategic Goal	Goal Statement	Goal Outcome
KPA 1: Spatial Rationale	Plan for the Future	Building Integrated Human Settlements	Effective regional Land Use management
KPA 2: Basic Services Delivery and Infrastructure Development	Accelerated Service Delivery	The primary focus of this goal is the eradication of service backlogs, balanced with community needs priorities and funded by means of own resources and available grants	Eradicate service delivery backlogs
	Empowered Communities	Provision of amenities to communities for recreational purposes to encourage incorporation of sporting bodies to develop formal sporting codes, aimed specifically at the Youth and previously disadvantaged persons	Self-actualization
KPA 3: Local Economic Development	Inclusive Economy	To engage with external partners (mines) with a view to solicit funding to establish SMME and Co-Operatives	Sustainable growth and job creation
KPA 4: Municipal Transformation and Institutional Development	Skilled and Retained Workforce	Optimizing Human Capital by way of the development of skills transfer and the improvement of knowledge management through continuous training and mentorship programmes	Capacitated workforce
KPA 5: Municipal Financial Viability and Management	Financial Viability	The ability to generate sufficient income to meet operating payments, debt commitments and where applicable, to allow growth while maintaining service levels	Financial liquidity
KPA 6: Good Governance and Public Participation	Sound Governance Practices	Create a culture of exercising ethical and effective leadership towards achieving transparency, good performance, effective oversight and legitimacy and accountability	Effective Oversight

6. STRATEGIC ALIGNMENT

The Department of Co-operative Governance, Human Settlement and Traditional Affairs (COGHSTA) has identified outcomes whereby the Strategic Agenda can be Implemented and monitored. Of critical nature for the municipality will be to link its strategic objectives to Outcome 9. The table below provides the detail whereby the strategic objectives of the municipality can be linked to the outputs of Outcome 9 and the six Key Performance Areas as stipulated by the Department of Co-operative Governance, Human Settlement and Traditional Affairs (COGHSTA)

KPA	Description	Outcome 9 Outputs	Strategic Objectives
KPA 1	Spatial Rationale	Actions supportive of the human settlement outcomes	To build Integrated human settlements
KPA 2	Basic Services Delivery and Infrastructure Development	Improved access to basic services	To improve community well-being through accelerated service delivery
			To improve social well-being
KPA 3	Local Economic Development	Implementation of community work programme	To grow the economy and provide livelihood support
KPA 4	Municipal Transformation and Institutional Development	Differentiate approach to municipal financing, planning and support	To develop and retain a skilled capacitated workforce
KPA 5	Municipal Financial Viability and Management	Improve municipal financial and administrative capability	To become financially viable
KPA 6	Good Governance and Public Participation	Refine ward committee model to deepen democracy	To create a culture of accountability and transparency
		Single co-ordination window	

7. STRATEGIC OBJECTIVES AND PROGRAMMES

The strategic objectives programmes were developed taking cognisance of the **vision/mission** statements as well as other contributing factors of the municipality as reflected in the following table.

KPA	Strategic Objective	Programme
KPA 1 Spatial Rationale	To build integrated Human Settlements	Land Use Management
		Spatial Planning
		Building Plans Administration
		Housing
		Facilities Maintenance Management
KPA 2: Basic Service Delivery and Infrastructure Development	To Improve community well-being through provision of accelerated service delivery	Electricity
		Roads and Storm Water
		Project Management
	To improve Social Well-being	Environmental Management
		Waste Management
		Sports And Recreation
		HIV & AIDS and other Diseases
		Cemeteries
		Arts and Culture
		Safety and Security
		Community Facilities Management
		Parks Management
		Extended Public Works Programme
		Disaster Management
KPA 3: Local Economic Development:	To grow the economy and provide livelihood support	Local Economic Development (LED)
		Tourism
		External Social Partnerships
KPA 4: Municipal Transformation and Institutional Development	To develop and retain skilled and capacitated workforce	Institutional Development
		Workplace Health, Safety & EAP
		Labour Relations
KPA 5: Municipal Financial Viability and Management	To become Financially Viable	Financial Reporting
		Financial Accounting (Revenue)
		Financial Accounting (Expenditure)
		Financial Management
		Asset Management
		Budget Management
		Supply Chain Management
Fleet Management		
KPA 6: Good Governance and Public Participation	To create a culture of accountability and transparency	Good Governance and Oversight
		IDP Development
		Performance Management
		Customer/ Stakeholder Relationship Management
		Public Participation
		ICT
		Communications

KPA	Strategic Objective	Programme
		Legal Services
		Policies
		Enterprise Risk Management
		Audit
		By-Laws
		Transversal programmes
		Municipal Security Services
		Indigents
		Records Management

8. PROJECTED MONTHLY REVENUE AND EXPENDITURE

One of the most important and basic priorities for any municipality is to collect all its revenue as budgeted for – the failure to collect all such revenue will undermine the ability of the municipality to deliver on services. The municipality must ensure that it has instituted measures to achieve monthly revenue targets for each revenue source. The revenue projections relate to actual cash expected to be collected and should be reconciled to the cash flow statement approved with the budget documentation. The reason for specifying actual revenue collected rather than accrued (billed) revenue is to ensure that expenditure does not exceed actual income.

The expenditure projections relate to cash paid and should reconcile to the cash flow (reconciliation between revenue and expenditure per month) It is necessary to manage and monitor cash flow on a monthly basis to ensure that expenditure does not exceed income, which if not properly managed might lead to the municipality running into financial difficulties.

This section of the document is based upon the Budget MBRR A1 Schedules that serve as supporting documentation for the budget, in particular Schedules SA 25 – SA 30 and will deal with the following:

Monthly Revenue Projections:	Monthly Expenditure Projections:	Cash Flow Projections:
<ul style="list-style-type: none"> a. Revenue by source. b. Revenue by vote. c. Revenue in terms of standard classifications. 	<ul style="list-style-type: none"> a. Expenditure by type. b. Overall expenditure: <ul style="list-style-type: none"> i. By vote ii. In terms of standard classifications c. Capital expenditure: <ul style="list-style-type: none"> i. By vote ii. In terms of standard classifications 	<ul style="list-style-type: none"> a. Cash receipts by source b. Cash payments by type

The SDBIP information on revenue and expenditure will be monitored and reported monthly in terms of section 71 of the MFMA

LIM471 Ephraim Mogale - Monthly Revenue by Source

9. SERVICE DELIVERY AND PERFORMANCE INDICATORS

The high level non-financial measurable performance objectives in the form of service delivery targets and other performance indicators form part of this section of the SDBIP. These indicators and targets will be cascaded to departmental scorecards, which will be used for internal monitoring of the organisation and relevant individuals. A detailed three-year Capital and Operational expenditure Project Plan is also incorporated to measure and monitor the delivery of infrastructure project and other internal operational projects. The budget has been aligned to the Strategic and Developmental Objectives and Outcomes crafted in the process of the IDP review cycle to enable the strategic intent and mandate of the 2025/2026 IDP to be attained.

9.1. KPA 1: SPATIAL RATIONALE

Strategic Objective: To build Integrated human settlements

10. CONCLUSION

The SDBIP is a vital monitoring tool for the mayor and council to monitor the in-year performance of the municipality. The SDBIP gives meaning to the budget and the IDP and will inform both in-year reporting in terms of section 71 (monthly reporting), section 72 (mid-year report) and section 46 (end-of-year annual reports). This enables the Mayor and Municipal Manager to be pro-active and take remedial steps in the event of poor performance.

The SDBIP provides the top layer of information for the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. The SDBIP aims to ensure that managers are problem-solvers, who routinely look out for unanticipated problems and resolve them as soon as possible. The SDBIP also enables the Council to monitor the performance of the municipality against quarterly targets on service delivery

11. APPROVAL
